## **ISSUE:**

The attached resolution proposes to approve, for future consideration of funding, the following project for which a Negative Declaration has been completed:

- Construct an access ramp and replace a bridge in Redding.

PPNO 3116 is the construction of an auxiliary lane and bridge widening from East Street to the Route 5/44/299 Interchange. The project is fully funded in the 2002 State Transportation Improvement Program (STIP) with \$7,178,000 Regional Improvement Program (RIP) funds and \$2,936,000 Interregional Improvement Program (IIP) funds for a total of \$10,114,000. PPNO 6650 is also an auxiliary lane and bridge widening project, from Acid Canal Bridge to just east of the Sacramento River Bridge and at the Route 5/44/299 Interchange. The project is fully funded in the 2002 STIP with \$15,029,000 IIP funds and \$15,029,000 RIP funds for a total of \$30,058,000. Construction for both PPNOs is scheduled to begin in FY 2006/07.

The Negative Declaration and supporting Initial Study have been transmitted to California Transportation Commission staff.

The Department of Transportation (Department) has approved the project for construction. This approval and the resulting filing of the Notice of Determination with the Office of Planning and Research will satisfy the environmental requirements for this stage of the project planning process.

## **RECOMMENDATION:**

The Department recommends that the California Transportation Commission, as a responsible agency, approve the attached Resolution E-03-24.
